Home Learning

We continue to be astounded by the work produced and uploaded from home. We know just how much commitment that takes from parents, thank you. We also know how difficult things are balancing everything at home. As always, our priority is that you and your family are safe and happy and that comes before anything else. We will always support you where we can.

Please let us know if you require assistance with access to learning provided from school. We still have a number of data sims left and this may help with access to the internet.

You may notice a reduction in frequency or speed of response on Seesaw and Tapestry this week as staff are making phone calls home to children who are at home and not attending school as a critical worker or vulnerable child.

Children's Mental Health Week

It was heartwarming to see so much engagement in the activities suggested by staff this week. This week was timely. It has never been so important to discuss and encourage our young people to be open and to discuss how they are feeling.

School closed

School will be closed as planned during February half term. Staff, parents and children alike need a well deserved rest so there will be no work set on Seesaw or Tapestry. We do ask that you have lots of rest and fun together as a family.
